Aug 9 1988

Dear Michael

As you undoubtedly know,
Robert Clifton has sent a paper
to Amer. J. of Physics in which
he gives a nice analysis of
some objections of Fellows to
a work of mine. He also
analyses my response to Fellows,
but that latter analysis is based
upon a faulty understanding of
the thrust and content of my
response to Fellows. This misunder-
standing is due to a misinter-
pretation of my word "could".
In order to forestall any
similar problems with my
contribution to "philosophic
Consequences of Quantum Theory"
I have added a paragraph.

Lawrence Berkeley Laboratory

I am sending you a copy
because of I know you
have an interest in this
subject.

Sincerely
Alan P. Kraft
